SOUNDS OF TIMELESS JAZZ

This is a beautiful recording that was inspired by a series of unfortunate events in Ann Sweeten's life. She has captured her memories of those events, the beauty of nature, cherished pets, and her recuperation from breast cancer in such songs as "A Place In The Sun," "Castles In The Air," "Echoes," and "Ashes" among others. Composed, produced and performed by Ann Sweeten, these twelve heartfelt songs feature both acoustic and electronic piano tracks that are sure to soothe, heal and relax. Accompanied by Trisha Craig on the flute and alto flute on four songs, this recording is a must have – not only because of its beauty, peace and loving sounds, but for the insightful and courageous stories behind the music that Ann shares in her liner notes. Art and music are healers and she uses both to great use. We encourage her listeners to do the same. Available on Orange Band Records at [www.annsweeten.com](http://www.annsweeten.com) -- Paula Edelstein
